

Vision-Box Biometric CUSS 2 Platform

Vision-Box Common Use 2 seamlessly bridge usable in both transitional legacy 1.x and new 2.x versions

A key focus of the new CUSS 2 specification is to increase security with modern technology and ensure that development can be achieved by web developers without proprietary training or expensive transient knowledge, consequently, the reduction in cost to build and maintain CUSS applications

Benefits:

- Run CUSS 1.x and 2.x side-by-side
- Allows for the use of latest web technologies and browser independence
- Abstracts away low-level device management complexities
- Seamlessly integrate your mobile experience
- Build custom applications with modern web development
- Increase device personalization

Features:

- Adapts to all types of system architectures
- Manages interfaces with the CUSS platform (card reader, passport reader, barcode reader, printers, etc)
- Includes agent assist via cloud technology
- Patented cloud technology facilities remote control (printing, lights, camera)
- Leverages full monitoring & management capabilities
- Increases security with modern technology
- Bridges existing platforms to be CUSS 2.x capable
